Hi Rodney,

I'm looking at hcgs.930548..lb, and need to know which end is moving.

The a end is at 152 S York St, Elmhurst

The z end is at 590 Supreme Dr, Bensenville for Romane

The DS3 is located at 10470 W 164th Place, Orland Park, IL

Please advise which end needs to move .

I also need to know who at Apps will test and turnup with Hicap. We will need a # to reach them at.

Thank you,

Mandy M Gilson

Hi Rodney,

I will be submitting all of these move requests to a project manager today so they are worked together. You will have to negotiate a due date with the project manager. Any request for a date sooner than the standard interval will need customer approval as there are expedite charges involved.

Thank you,

Mandy M Gilson

There is one more circuit we'd like to have cut-over in addition to the other four. The information is as follows:

HCGS.930548

Cutover to: 802/T3/23/ORPKILLVHOO/ORPKILORKO1

Thank You

Cc: davea@appscorp.net
Subject: RE: Circuits..

Let's move DHZA first, then I can cut the current customer over to that circuit and minimize they're downtime, then we can move HCGS to the 600W location. We'd like to do this as soon as possible, if you could schedule the moves on back to back days that would be great as well.

What due date you looking on each circuit and which circuit do you want moved first??

-----Original Message-----

From: Rodney Chatman [mailto:rchatman@appscorp.net]
Sent: Tuesday, June 13, 2006 1:22 PM
To: BRADFORD, WALTER G (ASI-AIT)
Subject: RE: Circuits..

Actually the HCGS circuit was supposed to be moved to the DHZA location. What we want to do now is move the DHZA location to where the HCGS circuit is at and move the DHZA circuit to another location. So from top to bottom, we'd like DHZA.065758..LB moved to 590 Supreme Drive Bensenville, IL. 60106, and move HCGS.930548..LB to 600 W. Chicago Ave, Chicago, IL. 60610

Rodney,

After reviewing your request further - let me guess at what you're requesting:
You want to move the HCGS circuit to the location where the DHZA circuit is currently located, if this is true, please know you cannot disconnect the DHZA without incurring termination liability since the DHZA circuit is

still
under contract. If my assumption is not correct - please explain.

Thanks

Romane is currently on the bottom circuit we can move them to the top circuit and put in a move request for the one ending 5/20/2010. I've left 3 messages for Peter so far, and am sending an email also.
